Beef Jerky- Must Try Food for Everybody by Julia Roger

Article published on July 11th 2012 | Business

If you have not tried Beef Jerky yet then you are sure to have missed on something extremely delectable. It is never too late and you can still savor this food. This foodstuff is quite interesting and is popular in some parts of the world however has not become a staple for British yet. However, it is gaining popularity with them as well. People who like something savory as snacks rather than something sweet would surely like this food. It is more fulfilling than crisps and foodstuff like that but lighter than sandwiches. Thus, it is the ideal item when you want to have something salty, spicy and light but fulfilling food.

This is actually dry cured meat, which is very popular mainly in North America. You might not know about it if you do not reside in this part of the world. However, place of residence cannot cause a hindrance for you to have something delicious. You just need to know about it and you can have it at any place you are in. It has a chewy texture and dark color. This seasoned food can be smoked at the time of dehydration process.

It has its equivalents in other countries as well and thus they have different names. In South Africa, this kind of food is known as Biltong. For centuries, people of different parts of the world liked cured meat like beef. It is a good preserving method and does not rot eatables. It can be kept for many days. Probably this is the reason why people like to have this food item. Different countries have its equivalents as a part of their local cuisines. You would get both plain and spicy version of this food item. This food item can be made with ostrich meat as well. If you want to taste authentic jerky then it is essential to visit a reliable store selling this kind of food.
