Nissan Micra Price in India by Paul Smith

Article published on February 1st 2012 | Auto

The Nissan Micra which is much popular in the market today is the fourth generation Nissan Micra that has been introduced in india. This has been built over the Nissan's latest V Platform, and it will be available in above 160 countries. In the complete sense, there have been 5.65million Micraâ€™s being sold in around 25 years. The latest and the innovative production hubs are there in Thailand, India, China, and Mexico.

In terms of the design, it is really surprising that the car has got much better appearance. There are certain interesting styling touches, one of which is double boomerangs over roof and the rarely elevatde back that cant be figured out in most of the photos. In fact, it not just have some remarkable lines in addition to the looks but there is lot more to be noticed. the idea is it is much better personally in acomparision to that of the pictures. you will also get the reason for the twin boomerangs, as not just they strengthen the roof of Micra positively, but even save on placing the deadener in roof that makes it more weighty. In reality, the Nissan has put in great effort in dropping down the weight by optimizing the parts.

Here comes the Engine and the Transmission part, you will be pleased to know that it is first car that has got HR12DE engine with the capacity of around 1198cc. The three cylinder petrol engine offers 75bhp at 6000rpm, giving out the maximum torque of 104Nm at 4000rpm. For further information, bore is 78mm & stroke is 83.6mm. The engine makers of the car designers have successfully managed to keep NVH levels low, particularly at the time of idling, which is normally an problem with the three cylinder engines. the reson why is because the level of vibration gets higher owing to the balance issues. The gearing is spot-on for the city roads ans also for the highway driving. Gear knob is of the perfect size with the gearshifts being found to be short that makes it for quick and the easy shifts. Nissan cars price in india are surprising.

The Driving Dynamics confirms that the sedan feels to be nimble and extremely light in terms of driving. And this is surely an real boon in the city traffic situations. The grand amalgamation of light steering, positive and short gearshifts, peppy engine and light clutch action makes it ideal for the Nissan urban commuter. The ride is really well composed at high and low speeds, leaving the cabin well insulated from the exterior noise. Nissan Micra reviews says that it is truly an value for money car that has been launched so late in indiam, but now that it is in indian market, it s quite pleasing for us all. Nissan Micra Price is pretty competative. one can compare by checkin other cars price in india.
