Article published on April 22nd 2012 | Auto

Automobiles in todayâ€™s world have great importance in our daily lives which males it very important to choose the right vehicle for our use. In Australia people drive on the left side of the road which is why vehicles driven in Australia are right hand drive. Toyota in Australia has been among the foremost car manufacturers and has been coming up with exclusive right hand vehicles since its establishment. Toyota as a brand is known for its power, reliability and quality and there are numerous models of Toyota known for its dependability. Toyota holds a large stake in the Australia cars and automobile industry which is why it is considered among the best in the Australian market. It is because of its durability, power, quality, comfort, and sleek design that Toyota rules the heart of many people in Australia and is amongst the most selling vehicles. There are several other right hand drive car manufacturers in Australia that produce some of most remarkable vehicles to be driven. This is why the automobile industry in Australia is progressing so rapidly and new technologies and modified designs have really taken the automobile industry of Australia to a new level and is competing the best in the world.

BMW is another extraordinary addition to the Australia right hand drive car industry, and is very much liked for its exceptional design and power. Normal features like nineteen inch alloy RIM, leather coated steering wheels and sports seats, automatic rear door, front and rear parking sensors, heads up display and rear view camera, along with high beam help makes it the first choice of the buyer looking to buy an Australia right hand drive car. It is due to this fact that the competitors in the automobile industry of Australia are striving for the best and are coming up with better design and technologies every now and then. This has become one of the main reasons

Ford is also a popular brand among the Australian cars mainly known for it being eco friendly, durable, and reliable. There are various models of ford available in Australia which are very popular and are liked by many people. The Ford Territory is still considered amongst the best SUVâ€™s in Australia and is not only used by individuals but also by several hospitals and emergency service providers as an ambulance. There are several other models of Ford equally popular in Dubai Australia which is why it is considered among the well known brands here.

Apart from Toyota, BMW, Ford, there are several other right hand automobile manufacturers in Australia that equally well known for some outstanding features and facilities. These include a large variety of vehicles from different parts of the world like Chevrolet, Honda, KIA, Lexus, Hyundai, Audi, Mercedes, and many more. This is one of the main reasons why people in Australia prefer a right hand automobile as not only they are sure to get a variety of options to choose from but also some quality vehicles from around the globe.
