A pacifier clip is also called a pacifier leash or a pacifier holder, and it may come in the form of a chain or clip. It prevents pacifiers from being dropped, lost or getting dirty. This thing is made out of durable and washable material, having a clasp that is strong enough to withstand a childâ€™s pull, yet gentle enough not to do damage to clothing. It comes in different stylish designs and colors. You can also buy a personalized pacifier clip if you want to give your child identity through it.

Babies always drop everything they hold, but you canâ€™t allow this for pacifiers. One solution to this problem is to attach the pacifier to a pacifier clip or holder, which you can then attach to the babyâ€™s clothing, or to the stroller when you take him out for a walk in the morning sun. A personalized pacifier clip can also be in the form of chains with attractive colors and shapes. This can attract and amuse your baby for hours and also proves to be effective holders, keeping the pacifier off the ground or flooring.

But why do you need to personalize your babyâ€™s pacifier clip? Well, personalization is always good. Besides giving identity to your child, personalization makes the pacifier holder attractive and an object of amusement for your kid. When you have a baby in the house, he or she needs a pacifier for suckling most of the time. You need a personalized pacifier clip to keep the pacifier off the dust and dirt. When your baby is in a day care center, there is a need to identify that her pacifier with a holder having her name actually belongs to her.

And if you find yourself in a situation where you need to buy a gift for a new mother who just gave birth, or to an expectant mother (as in baby shower), a personalized pacifier clip is a good idea. You do this personalization in the form of imprinting a babyâ€™s name, cartoon figures and funny names. You can even put the babyâ€™s photo on it. You can also make it like a charm; the babyâ€™s name and date of birth are placed hanging from the pacifier clip. Another option is writing the name of the child yourself. When your order arrives, you just get a ball point pen and inscribe the name on the space provided for the purpose. Youâ€™ll find the overall look is polished and attractive.

To purchase personalized pacifier clips online, make a research and look for websites that sell these things. You can find online shops that specialize in baby items and they usually have pacifier clips on their stock. Go to clips section and find out what options they offer. There are very attractive designs you can choose from, and prices for pacifier holders are always affordable. When shopping online, always buy from reputable websites. You will know if a site is reputable by reading customer testimonials about their products and customer service.
