Ask a Vehicle Body Builder to create a cracking curtain sider by [James Blee](#)

Article published on August 8th 2012 | [Advertising](#)

When you require a hand-built commercial created from scratch your first thought might be to contact a Vehicle Body Builder. The skills of a Vehicle Body Builder are put to the test on a variety of commercial projects for a broad range of customers. They have this amazing talent to transform a vehicle chassis and the Vehicle Body Builder creates unique commercials to the exact specification of their client.

A Vehicle Body Builder works on numerous intriguing concepts and no two projects are the same. As you would expect the quality of the service from a Vehicle Body Builder is second to none and they construct each new vehicle to the very highest of standards.

Projects a Vehicle Body Builder might undertake

Professional to the extreme, a Vehicle Body Builder is more than happy to handle any unique project on behalf of their clients.

The skills of the Vehicle Body Builder might be required for a rigid body vehicle or they could be asked to create curtain sided vehicles for a customer. Dropsides and tipper trucks are a specialty of a Vehicle Body Builder and they bring box vans to life using their specialist skills to satisfy their customer's needs.

It's a case of no job is too mighty for a Vehicle Body Builder, they're happy to talk through all types of projects with their client base and relish the challenge of creating new and intriguing concepts as and when the need arises.

Looking for something special from a Vehicle Body Builder?

No problem, sit down and have a chat with a Vehicle Body builder that has the skills and experience to handle anything you might have in mind. If you want a crane fitting to the back of a flatbed or need to create a unique vehicle for tree pruning purposes it's all in a day's work for a proven Vehicle Body Builder.

You're just as likely to see a Vehicle Body Builder fitting tail lifts to trucks as you are watching them install cages on specially adapted vehicles. They build milkfloats, create steel bodies for all types of vehicles and a Vehicle Body builder is always willing to adapt their working methods to bring a new project to life.
