Article published on February 2nd 2012 | Business

Unfortunately, there are hundreds of corrupt organizations and companies existent both in the private and public sector, which are defrauding the government with billions of dollars every single year. If you would like to take up the fight with one such organization or company, a whistleblower attorney can offer you all the help that you need. The truth is that some people are simply too afraid of reporting such illegalities; but you need to know that it is your right to do so, and legal experts are there for you with all the advice and counseling needed. Keep in mind that these frauds are all basically aiming to cheat the government out of taxpayerâ€™s money. You work extremely hard to support your family, to pay off all your debts with taxes included. Those taxes are not existent with the purpose of making some corrupt companies and organizations rich, but in order to sustain the smooth continuity of an entire nation, and to promote a healthy and fraud clean society.

Tax money is used by the state in order to pay for the wars, for the economic infrastructure of a country, for social engineering and for the proper enforcement of public order and law in general. Private Citizens should never allow a government fraud to go on unnoticed- because a strong team of attorneys and other legal specialists can help take off the mask of such corrupt entities that exist within the system.

The entire system works around a contingency fee basis. In other words, the whistleblower does not have to support any out of pocket service fees or other expenses. The attorneys will receive only a small fraction from the amount that they recover for their client. If they cannot manage to make the culprit pay, attorneys will never charge anything for the services they provided. It is also important to keep in mind that â€œwhistleblowersâ€• are actually entitled to receive quite an important percentage of money from the recovered amount (this value generally ranges between 15% and 25%). Just imagine that if the culprit will pay only $100,000 in damages, the plaintiff is eligible to receive up to $25,000 from that.

If you know of any organization or company that is making illegalities, you should definitely contact a qui tam lawyer and ask for assistance. Private Citizens are highly encouraged to step forward and speak up in order to help promoting a fair system and a happy society.
