A Brief Introduction to Aesthetic Surgery by Pooja Sharma

Article published on March 1st 2012 | Health

The significance of looking beautiful has always been emphasized. A pleasant personality instills a lot of confidence and self assurance in a person because how you appear, how you look actually defines how much you are in love with yourself and to look beautiful, to look agreeable and pleasing is not easy, it is undeniably a skill.

No matter how accomplished you are professionally, if you are carrying frizzy hair, chapped skin and unsightly bulges, you are likely to be disregarded

We are living in an age where just about every flaw of our body can be sculptured using surgical/non surgical procedures that are fast and guarantee satisfactory outcome. This can be achieved with the help of aesthetic surgery.

What is Aesthetic Surgery?

A surgery which is aimed at the improvement of appearance is known as Aesthetic Surgery. It comprises of both invasive and noninvasive procedures which could be:

â€¢ Botox to lighten and even wipe off all the wrinkles and laugh lines.

â€¢ Chemical peels to scrap away the dead cells paving the way for healthier skin.

â€¢ Injectable Fillers to add substance to thin lips and also to fill the facial imperfections like pits and fissures.

â€¢ Laser treatments for the removal of acne scars and excess facial hair

â€¢ Liposuction for the contouring of body parts the such as abdomen, hips, chest and buttocks

â€¢ Breast surgeries like Augmentation, Reduction and Gynaecomastia

â€¢ Facelift to stiffen that drooping skin

â€¢ Nose and eye lid surgery to rectify the abnormal shape

It is of paramount magnitude to get scrutinized by qualified doctors, get the right kind of treatment and recuperate totally and see the noticeable change in you post the procedure. One such place where you can be completely convinced of getting what you want is â€œADIVAâ€• where every day, every moment is dedicated to achieve highest levels of patient satisfaction.

ADIVA comes from the house of Marvel group and is a revered name for its services such as IVF, Surrogacy, Birthing facility, Stem Cell treatment etc.

Adiva has recently bagged the service excellence award for its Aesthetic Center. The aesthetic wing of Adiva is an abode of practiced aestheticians who use most up-to-date technologies, stringently following the international protocols. The feel and look of the place is such that the patient feels relaxed and totally at home. Adiva is a one stop shop for managing all skin, hair and body despairs. The centre is unwaveringly working not only towards the enrichment of the physical beauty of a person, but is intensifying its expertise in escalating the overall confidence of an

individual

So donâ€™t let that acne, balding patch or a paunch stop you from chasing your dreams. Come and discover the world of beauty, confidence and radiance.
