Forget Fred™s the Weatherman™s weather Warnings with water- tight Smoking Shelters and cycle shelters from Shelters4you by [James Blee](#)

Article published on July 20th 2012 | [Advertising](#)

Since the UK smoking ban in public places was enforced in June 2010, eating and drinking establishments, popular public meeting points and busy workplaces alike, have struggled to find alternative locations for their diners, guests and employees to smoke- and socialize – both easily and comfortably. And, with the government so keen for us to cycle to and from work, workplaces and other environments of natural beauty- like parks and museums - are also being asked to provide weather- tight cycle shelters in which to house bikes safely and securely; away from the prying eyes of potential thieves and where their two- wheeled companions can temporarily reside, away from harsh weather conditions.

If you are the owner of a business wishing to promote healthy living or, the proprietor of an all-encompassing eating and drinking establishment who is seeking outdoor accommodation in which to hold your smoking guests, look for affordable, quality smoking shelters and cycle shelters from a reputable provider and the rewards will speak for themselves!

Welcome Shelters4you. For the prompt supply of cycle shelters and smoking shelters ; cycle shelters and smoking shelters orders of any size and scale, we have a vast array of both smoking shelters and cycle shelters that are suitable for any number of social, public settings.
