Who wears funny t shirts for men? Iâ€™m going to assume you arenâ€™t one of those people who wear funny t shirts for men, and Iâ€™m going to speak frankly and honestly about funny t shirts for men. In the realm of fashion people who wear funny t shirts for men are the lowest of the low; they are literally scum to most people with fashion sense. Sure the slogan on the front of your funny t shirts for men might get a smile out of someone a few times, but when you wear it three times every week and the logo gets faded and chipped and the shirt itself gets covered in gravy stains and tears, are your funny t shirts for men really going to raise much of a smile after that? Itâ€™s unlikely. Donâ€™t get me wrong, for lazy days, sleeping in, or doing work around the house and garden funny t shirts for men are great. Theyâ€™re not too plain, for the most part theyâ€™re comfortable, and you wouldnâ€™t feel too bad about them if your Funny T Shirts for Men accidentally got covered in pasta sauce, coffee, dirt, or blood. If you wear funny t shirts for men to a wedding or a date it is highly unlikely that youâ€™re going to get anywhere in life, thatâ€™s a simple fact. You wonâ€™t get promotions, you wonâ€™t get dates, and you wonâ€™t finally graduate from man-child to an actual adult human being.

Itâ€™s harsh, but once you hit a certain stage of maturity the funny t shirts for men have to go. Simple fact that it is, some people do not mature as fast as others, but if youâ€™re wearing funny t shirts for men well into your thirties, forties, or even fifties you might as well arrange your own funeral right now, because youâ€™re going to die cold and alone. Sorry fans of funny t shirts for men, thatâ€™s just the way things are and anybody who lives in the adult world will know this. It doesnâ€™t stop you wearing funny t shirts for men, but I thought you should just know.
