Online Free Classified Ads by [Shafiq](#)

Article published on December 17th 2011 | [Advertising](#)

Now a day Online Free Classified Ads Advertising is very common all over the world. There was a day when people were just limited to advertise in newspapers, magazines and gazettes and they have to spend a lot of money on the promotion of there business products and services but Free Classified Advertising made a huge impact on the business sector as well as personal transactions and dealings.

People are using Classified Websites as a source of promoting their products, services etcâ€¦ and many are doing their business online through free classified ads and earning extra profits. Free Classified Websites create a bridge between people who are living in different countries, businessman use it to contact and introduce their businesses to the people from the globe and growing their business Different classified websites created many categories and classifications for example: for sale, real estate, cars and vehicles, jobs and vacancies, business directory, services, matrimonial and dating etcâ€¦

Almost all the good page ranked classified websites are charging through their different packages and earning by selling space on the different sections of the website for example: classified websites place Google adsense ads on top banner, rights sidebars, image ads, text link ads and private advertisements.

Free classified ads are usually text based with limited text and some allow uploading pictures and videos. There is a simple online form to upload/post ads and request some information from the visitors like: Name, Phone, Email, and ad description etcâ€¦ some website ask to register first and then they allow posting your ad but some donâ€™t.

Basically classified websites gain a great deal of traffic and it is a self promoting website because visitors post ads and share them in their community and generate a lot of traffic in terms of visitors to the website. Visitors and website promote each otherâ€™s interest that is why there are thousands of classified websites around the globe. Interactive Advertising Bureau estimated the net worth of online classified ads revenue at \$2.1 billion as of April 2006.

Some classified websites are for specific countries and regions and some are dealing worldwide. One of the best websites is www.quikr.pk. It is originally a Pakistani website and covered all the cities of Pakistan. Pakistanis from all over the world come and post their free classified ads and convey their message to all the other Pakistanis. It is a totally free classified website and charges you nothing but gives you a lot. You must visit this website because it definitely attract you and compel you
