Opera Mini 6.5 Web Browser is Now Available for BlackBerry Users Via App World by Tom Broad

Article published on March 12th 2012 | Technology

Today, Norwegian software company Opera software has formally announced that they have reached in the Blackberry App World. Opera Mini mobile app portal has already approached in many smartphones in over 100 countries. With this landing, the application will now be accessible to the devices which runs under RIMâ€™s BlackBerry Operation System. Opera Mini 6.5 browser has now available via the Blackberry App store. It is the worldâ€™s most â€“used mobile browser and has now cleared its way to the BlackBerry. Itâ€™s a good news for BlackBerry users that they can now download the browser from the App store. If they want they can just upgrade the new version whenever it is available.

Notes released from Opera states that â€œOpera Mini â€œ has made its landing this week to BlackBerry App World is now going to Big on the â€œBerryâ€•. Downloading the application is very easy with the app world of the device. The notes from Opera also inform that manual downloading from m.opera.com was convenient for the BlackBerry users as they have been saving money and data on their devices since long. Now the software is more convenient to download via App World. The record says that the web browser navigates fast by both the downloading system on the mobile phones. The notes from the Software company says it will also give huge data saving through Opera compression technology. In this the software needs to transfer only 10 percent of the data to the handset, It could be quit lifesaver while traveling. It is as per the data cap or by paying for per megabyte downloading.

Opera Mini is accessible by more than 160 million users monthly, reportedly favorite among users. Along with this , the mobile web browsing gives same experience of browsing as a desktop PC user experience. It also provides a graceful zooming of content for better reading and interaction. It too provide smooth social sharing networking. One of the greatest benefit for BlackBerry users in viewing the web faster will be with the handsetâ€™s hot key that makes page up and down while accessing the Internet using Opera.The Chief Executive Officer of Opera Software, Lars Boilesen says that they donâ€™tâ€™want to miss any opportunity in making out the way for the people to reach Opera Mini, as it is the worldâ€™s most popular browser.
