Dentist or Cosmetic Dentist?

by Elitesmiles

Article published on July 9th 2012 | Health

A dentist can treat your teeth for cavities, infections or other issues. For the looks of your teeth, the most he can do is teeth whitening which is temporary in nature. But, if you want a permanent solution to it and want your teeth to look perfect always, then you must opt for a Cosmetic Dentist. A cosmetic dentist would be proficient in tasks like porcelain veneers, dental implants, teeth whitening, clear braces, dental bridges, etc. A general dentist might promise you to do some of these things, but a specialist cosmetic dentist would know just how to do it right.

A cosmetic dentist might charge higher than a general dentist. This is because a specialist deserves the amount for his knowledge and work. Although you would find a lot of general ones in and around the city, but cosmetic dentists are often few in number. So would need to look out for them. There are many ways in which you can start your search for a cosmetic dentist Hamilton. Some of these ways are discussed below:-

â€¢ If any of your friends or relatives know where they are situated.

â€¢ Ask your general dentist if he can recommend it to you.

â€¢ Look for online references of cosmetic dentists around you.

Before choosing a dentist for treatment, you must keep the following points in mind:-

â€¢ Spend some time in studying about these dentists. Know their areas of expertise, methods of doing work, and other things. This would help you in assessing the quality of service they would provide.

â€¢ Make sure that the dentist you are visiting possesses a degree or at least some certificates to prove that he is not a general dentist but is a specialist.

â€¢ Most of the dentists tell you that the procedure would be long and it requires touching up of other areas as well, beware of such dentists. You must choose the one who honestly assesses what you require.

â€¢ He must be able to communicate everything that is going on and that will take place during the course of treatment.

â€¢ He must be able to show that he cares not for the fee he would receive but for you and your teeth.

â€¢ You might want to take feedback from a few patients of the dentist to be sure of the quality of services being provided.

â€¢ Look around his clinic carefully. You should ensure that the area is clean and keep up hygienic surroundings.

â€¢ Also, his clinic would surely be displaying the achievements and work of the dentist. If he has none, then you have a reason to doubt his work.

â€¢ Ask him for the technologies he uses for treatment. A genuine one would be using the latest machines and technologies.

â€¢ See if he is charging you more than what others are or if he is being unfair in his fee structure. If he is providing services that are more in number and better than others, then a bit higher fee would not be illegitimate.

Taking care of the above mentioned points you would be able to find a cosmetic dentist Hamilton who can get you that star smile you want.
