SAMSUNG Galaxy ACE - owners pride by Stephen Woods

Article published on April 2nd 2012 | Mobile Phones

Planning to buy a mid-range smartphones with classic looks and amazing features? Samsung Galaxy Ace is definitely going to be a winner. Samsung has integrated such features in Samsung Galaxy Ace that you will not find in other smart phones of similar price range. To start with, Samsung Galaxy Ace has 3.5 inches TFT capacitive touch screen, besides being supported with 16 million color depth and sharp resolution. This big screen will for sure be reminiscent of iPhone! Because of the 320 x 480 pixels high resolution, it is possible to run a high definition movie.

The measurement of the handset is 112.4 by 59.9 by 11.5 mm and has a weight of only 113 grams. It has an internal memory of 158 MB with a complementary 2 GB memory card though phone can support up to 32GB. The phone comes with a microSD card slot for external memory. This devise has a long lasting battery and hence the owner can use the phone for up to 11 hours on 2G and up to six and a half hours on 3 G. In stand-by mode, the battery can last till 640 hrs for 2G and 420 hrs for 3G.

Samsung Galaxy Ace supports a 5MP camera with 2592x1944 pixels along with LED flash and software features such as auto focus, geo tagging, face & smile detection, video calling and so forth for startling pictures and amazing videos. Pictures taken can effortlessly be shared or transferred through either Facebook or Picasa.

This smart phone runs on Android 2.2 Froyo operating system as well as using 800 MHz processor which is quite substantial. It is highly probable that Samsung will be upgrading this handset with 2.3 Gingerbread. Adding the feature of GPS to this gadget will definitely make it an attractive buy for globe trotters. Incorporating features for example- Gorilla Glass display, Touch Wiz v3.0 UI, etc. to the touch screen gives the phone a plus point.

Other options available are vibration, MP3, WAV ring tones, loudspeaker and so on. There is the option of FM radio with RDS for entertainment. For users who enjoy playing games, Samsung Galaxy Ace White has made it achievable as there are few touch screen games.
