This small hotel is well-located at Columbus Circle, and the staff is friendly. The rooms are quiet, comfortable, and updated. The bathroom is spacious, and very clean.

We like the location and decor of this hotel a lot (have stayed there once before when it first opened). Scrim shades on the window and radiant heat in the bathroom tiles makes it very comfortable. We had a small double bed but it suited us fine. We`ll stay there again whenever we see it on sale.

columbus circle bars is located in such a new location that everyone is surprised this place was not packed! I went for after work drinks with a girl friend and it happened to be "Girls Night," Tuesdays. As soon as we sat down, we were greeted with a sample of warm wine to sample.

We ordered our drinks - Chocolate Raspberry Martinis. They tasted like chocolate milk for adults. Delicious! We also ordered small plates and the food was great as well. After we finished the food and drinks we received complimentary shots and chocolate covered strawberries for coming on a "Girls Night."

It was his perfect first date spot. Its romantic and intimate but not expensive to make a girl think you are trying to hard.
