Article published on November 29th 2011 | Auto

Indian automobile market has become the hotspot for many automotive giants across the planet and with an extensive growth, the Indian automobile industry is all set to become one of the market leaders in the coming years. Suzuki Cervo from Maruti is a beautiful small car which can give Maruti a new fresh contender to compete with some other cars. Indiaâ€™s largest auto manufacturer, Maruti is planning to launch another small car model Maruti Cervo in entry level segment in the Indian auto market. Maruti is working aggressively to launch Maruti Cervo in Indian market as a counter attack to Tata Nano which has stormed the auto market with its ultra low cost.

Maruti Cervo is a five door hatchback model with spacious passenger cabin. The arching roofline, sporty headlamps and fog lamps which is placed next to its large grille makes the front appearance of Maruti Cervo very aggressive. Its rear is also appealing with its high mounted large tail lamps. Maruti Suzuki Cervo has sleek and beautiful metropolitan look and compactness of a urban car. The interior space is comfortable for seating of 4 adult passengers. Interiors are of good quality and attractive. As far as safety is concerned, Maruti Cervo is equipped with standard active and passive safety features. The major features about safety are two airbags, engine immobilizer, front and side impact beams, passenger side rear view mirrors, child safety lock, seat-belts and anti-theft system.

The Maruti Cervo is powered by a 0.7L, 660CC petrol engine along with maximum power capability of 60bhp. Blessed with a new generation sporty look, the Maruti Cervo will surely attract the younger generation with its sporty stylish look, classy interiors and sleek exterior design. The extremely sleek look, efficient engine and economical price range is bound to give a good start to Maruti Cervo. The technology promises better mileage by optimizing fuel consumption. The car would give around 20-24 kmpl of mileage. The steering wheel is expected to handle the car with ease and less physical force. The steering wheel is adjustable as well. Maruti Cervo will have wider dashboard comprising round AC vents at both end and instrument panel just behind the steering wheel. The seats for driver and other passengers are wide and comfy with small headrest. Headroom and legroom at both rows are pretty enough for four passengers.

Maruti Cervo has been launched in Japan already and doing very well. This Maruti Suzuki car is receiving overwhelming response in Japan and the company is expecting same kind of success in India too. It is expected that the Maruti Cervo will be priced in the range of Rs 1.5 to 2 lacs.
