Article published on July 20th 2012 | Travel

Hiring a taxi in the past was a hassle as you needed to get to a taxi rank and look for a vacant taxi for hire. This was not only bothersome but also time consuming especially for those people who live a busy and hectic life. Time is money therefore waste of time means waste of money. In the new era, when time is given a great significance due to the fact that life has become extremely fast paced, the taxi companies have worked out and have found a new method of hiring a taxi which is far more convenient and time saving as compared to the old one. This new way of taxi hire is called online taxi booking. For instance you are in any part of London and you require catching a flight from Gatwick airport, you can get online transport to Gatwick airport by entering your date and time of pickup and a few important credentials. Following the simple online taxi booking procedure, lets you hire a taxi without having to go out and waste your precious time. You can utilize this precious time on either way instead of wasting it up while looking for a taxi.

For making the booking process easier the cab companies have further worked on the taxi booking procedure and have come up with a new and innovative cab booking system which lets you to book taxi from mobile conveniently and easily. You do not even need to spend time on your desktop PC now. All you need is a Smartphone or a simple phone with internet connectivity and your taxi booking is in the palm of your hands. A simple internet phone works via mobile site for simple booking procedure however if you own a Smartphone such as iPhone, Blackberry or Android Phone, you will be required to download a free application for cab booking. This application is a highly advanced method of taxi booking. You get a countless list of benefits when you book a taxi from your Smartphone via mobile application. The special services you get when you book taxi from iPhone, Android Phone or Blackberry include quick rate quotation, cab booking confirmation and dispatching, cab location tracking, cab fare payment via credit/debit cards and much more.

The businessmen and corporate class customers, who frequently visit a country such as United Kingdom, can hire a taxi without having to get into any kind of hassle. People usually prefer booking taxis for airport transfers. Whether for getting to airport or getting from airport, there is a large percentage of online taxi booking passengers who hire airport taxi services. CrossCab is one of the oldest and leading online taxi booking companies of United Kingdom. They have been providing comprehensive ground transportation solutions to their customers in UK since many years. They offer special services for all kinds of requirements such as estate saloons for couples whereas MPVs (people carrier) for small group of people. Their dedicated airport cabs include wheelchair accessible cabs for disabled travelers. If you are looking for transport to Heathrow airport or any other major airport of London such as Gatwick, Stansted, Luton and London City, you can easily hire your cab online via call, website or mobile application/site.
