Online Wedding Limousine Bookings by Christina Kevin

Article published on August 2nd 2012 | Travel

Wedding is the biggest event of oneâ€™s life and everybody wants to celebrate it the way they remember it throughout their lives. In order to make a memorable wedding day, you need to make a special plan so that you do not regret later in life. The preparations for a wedding may include dresses, flower arrangement, venue selection, catering, food and sweets and last but not least, wedding transportation. There has been a trend of hiring a chauffeured wedding limousine, decorated beautifully with flowers and ribbons carrying the bride and groom to and from the wedding venue. This not only makes them feel like a celebrity but also makes a distinction between others and the couple. They get the focus they deserve on their special day. You can make a wedding limo booking via any reputed transportation company. There are many wedding limo hire companies around the world offering superior class limousines at budget friendly prices. They also offer special wedding limo packages suiting different budgets.

Choosing the right car for your wedding is not a difficult procedure. All you need to do is to check your budget and ask a wedding limo company to guide you accordingly. When itâ€™s the biggest event of your lifetime, shelling out a few bucks from your wallet wonâ€™t hurt you at all; therefore you should do the maximum you can afford on this very special day for finding the elegance and style that you desire at the right price. People hire limo cars of different types depending on the number of passengers required to carry along with the couple. Most of the couples prefer riding the wedding car alone however in some parts of the world, itâ€™s a tradition that the bridge is accompanied by some of the family members such as sisters or relatives on the way to venue. For couples, the most economical and commonly used choice is a sedan limousine. Itâ€™s a highly luxurious car which does not cost as much as other limousines. The maximum seating capacity of a sedan limousine is 3 excluding the chauffeur therefore itâ€™s the best choice for a couple to ride to their wedding venue.

Since sedans are good for couple only, some people also hire SUV (sport utility vehicle) which is a larger and roomy vehicle. SUVs offer a highly comfortable seating capacity of up to 8 passengers therefore a bride and groom may be accompanied by their close friends or relatives as well during their ride to the venue. The corporate limo hire services are availed by corporate class people. These limousines consist of super class vehicles such as stretched sedans or stretched SUVs. The stretched vehicles are the most expensive and are a symbol of sheer status and wealth. They are very expensive even for hire and only corporate class people hire them for managing their travel requirements. The most popular of stretched limousines include Lincoln Town Car Stretch, Chrysler 300C Stretch, Escalade ESV Stretch, Hummer H2 Stretch and many more. Bridge Limousine is one of the leading online limo booking company of United States offering chauffeured limos for all kinds of events and occasions.
