Article published on June 19th 2012 | Business

-With over twenty years of experience in the industrial coatings and refining industry Easter Commercial Limited is has all the required skills and experience to facilitate all of the protective coatings and grit blasting requirements that our customers require.

From humble beginnings at our site in Dereham, today Easter Commercial operates from a two acre site in Lyng, Norfolk. Our services include protective coatings and grit blasting, commercial vehicles bodywork, graffiti removal and even beam blast clearing. The meticulous attention to customer services is evident throughout everything that we do, and weâ€™re confident that youâ€™ll find the protective coatings, and indeed the other services that we can provide, as cost-effective as they are thorough.

As a health and safety conscious business we devote a considerable amount of resources to ensuring that the working environments are free from any potential hazards and that all of our employees are fully-trained and adhere to the latest working practices. From protective coatings to grit blasting we ensure that all safe and correct equipment is used at all times. Indeed, as testament to just how seriously we take health and safety we undertake consistent risk assessments as part of the continuing commitment to excellence and customer care.

The protective coatings that Easter Commercial provides are part of a mobile service that covers the whole of the UK. These protective coatings are applied to prolong the structural steel work and building substrate using specific coatings. The protective coatings that we offer are, where applicable, used with Highway Approved Systems.

In addition to the protective coatings and grit blasting that we can offer Easter Commercial Limited can offer, our extensive knowledge of a wide range of products means that we have the expertise to re-coat a whole range of substrates from steel and aluminium to concrete cladding and roof sheeting our services will ensure the structural integrity of a number of different structures.

If youâ€™d like to find out more information about the protective coatings, or indeed any of the other products that we can offer, then you need only come and visit us online at:
