Exciting offers from ATT U-verse by [Annphilip](#)

Article published on March 2nd 2012 | [Business](#)

U-verse is the advanced technology product from ATT that brings more features and high quality to customers looking for more from ATT's product line. U-verse represents the future of entertainment and communication service. By bringing together superior TV, high speed Internet and home phone service, ATT succeeded in its attempt to satisfy customers.

ATT U-verse TV

By subscribing to ATT U-Verse TV you can enjoy programs with crystal clear picture quality. Some of the exciting features include Total Home DVR, multiview channel browsing, On Demand, choice programming and accessibility to 170 HD programming.

With Home DVR, it is possible to record four shows at once and store to long hours. Recording and pausing of shows are also possible. As DVRs can be accessed remotely from a computer or wireless phone, you don't have to worry about missing your favorite program when you go out with your friends or family.

Multiview is a best option for people who like to watch more than one channel at a time. You have the option to watch pre-set multiview. While you view regular sops and realty shows, you can watch live baseball or rugby.

ATT U-verse offers a robust channel lineup of 170 HD channels and a large library of On Demand titles. On Demand includes exclusive programs and shows and classic and recent released movies. Among recent release movies, you have the option to watch "same day as DVD" movies. The On Demand library is growing every week with the addition of premium programs and new movies. ON Demand library will be updated every month, this widens your opportunity watch more.

ATT U-verse Internet

Powerful security services and a wide range of download speeds offerings are the trademark of ATT U-verse internet. In addition to this, ATT U-verse offers wireless router and home networking, unlimited e-mail storage, access to national Wi-fi network, and parental controls.

By opting for U-verse Internet you can enjoy the following options: -

Internet plans such as Pro, Elite, Max, Max Plus, Max Turbo that offers speeds in the range of 3 - 24 Mbps.

Free access to Music videos and customize commercial free radio stations.

Download online games within seconds and play with family and friends.

Access to thousands of Wi-fi Hot spots, including Starbucks, McDonald's, Barnes & Noble etc .

Virus and Spyware protection - the software detects, blocks and removes virus, spyware and adware before it attack the entire system

Parental controls - now it become easy for parents to control the kids usage of Internet.

Pop-up catcher – This catches the annoying pop up advertisements.

ATT U-verse voice

With over 20 exciting additional features ATT U-verse voice delivers great sound quality and reliability. Other than standard features like call waiting, voice mail, and call forwarding, you can have advanced features like –

Call screening – This feature allows to answer phone calls only from those people whose phone numbers are present in the call list.

Call transfer – This helps to transfer calls already in progress to other phone with a different number.

Locate Me- When someone calls to the home phone number, Locate Me option alerts people by passing the phone call to nearly four wireless or landline numbers.

If you bundle all the U-Verse voice with your U-verse TV and Internet service, you will get caller ID, message indicators and Call history on the television screen. With a single click on the remote control you can chat with your friend or family member, without missing your favorite show. ATT gives bundle packages at reduced rates. Bundled services allow customers to choose services and features they want, this avoid paying for services they don't use.
