Future of Interior Products Industry in Russia to 2015 by [Bharatbook](#)

Article published on March 23rd 2012 | [Business](#)

The Russian interior products industry is one of the fastest growing in Europe, registering a CAGR of XXX% during the review period. Despite recording reduced growth during the global economic crisis, the industry recovered rapidly in 2010. The Russian interior products industry is expected to continue growing rapidly during the forecast period, fueled by the country's stable financial condition, strong demographic growth, growing disposable income and rising middle-class population. In addition, the industry is expected to benefit from the impact of major upcoming sporting events which will be hosted in the country such as the 2014 Winter Olympics and the 2018 FIFA World Cup. The country's strong economic condition is expected to lead to robust growth for the country's construction and real estate industries, which typically increases the demand of interior products.
