Article published on April 24th 2012 | Business

All the electrical contractors must have proper license before providing electrical services as a sole trader or partnership. Electrical contractor license are valid for one year and you have to get it renewed after that period. If you are a licensed contractor then it is your responsibility to maintain your eligibility throughout this period. You can even go for business contractor license after fulfilling some requirements like having a qualified technician and businessperson to manage your business. We are going to discuss the procedure for applying for electrical contractors licence.

How to apply for electrical contractor working license: You need to have some important documents before applying for your license. Following documents are required along with your application form:

Documents for fulfilling insurance requirements

Your complete declaration form

Identity details for your qualification as a business person and as a qualified technical person

Fees for the application form using Cheques, money orders, and credit cards.

You are required to submit all of these documents with your application form in your electrical state department. Keep in mind that all of these details are verified and absence of any of these documents may lead to rejection of your application.

Insurance requirements for electrical contractors licence: There are strict insurance requirements for fulfilling your authority as electrical contractors. The insurance requirements for your

eligibility are given below:

Public liability insurance for at least $5,000,000

Consumer protection insurance worth $50,000 and more.

The policy should cover all the requirements as stated in the eligibility criteria set by the authorities. Keep in mind that there is a particular closing date for receiving applications and you have to submit your application before that period.
