Article published on June 5th 2012 | Business

Sight words are always important for young kids. When children learn to read, it is best to enhance their word bank with the help of kindergarten sight words. Generally, these words include high frequency words, which are must for your children to accomplish basic education. This article will discuss some basic tips for children to learn sight words for kindergarten.

Why kindergarten sight words are important?

It can be hard to learn to read. There are chances that children might give up the process because of the labor involved in the process and it is rather a slow process. It is best to use sight words for kindergarten which helps in building confidence of children and their reading fluency. For kindergarten students, it is best to include high-frequency words in the course.

â€¢ The first step is to look out for several examples before introducing new words in the class.

â€¢ Teacher should use a sequence for writing words. The process should be divided into different parts including Look at the picture, Cover it, Write the word and then Check it.

â€¢ Most of the teachers use an interesting came called as â€œMy pile, your pileâ€•. Under this game, the teacher will show a flash card to the kids with an image or word. If the student is capable of recognizing the word, then it goes to his pile otherwise to the one giving the right answer. The student with biggest pile should be awarded at the end to keep the interest.

â€¢ The teacher should consider the fact that these words should be learned as a whole unit and it is not just a pronouncing activity. It is important to work at a normal pace so that every student can adapt to the game.
