GIVE THIS MOBILE PHONE TO ANYONE AND SECRETLY MONITOR THEM ANYWHERE AT ANYTIME

This mobile phone looks and operates like any other mobile phone. It can dial out and receive calls like any other mobile phone. However we have put in special program which once activated, the SPY-Phone will let you know all the phone activity of the Phone user. (To others it will act like a normal mobile phone, but to you it will serve as a very powerful detective tool)

How is it more powerful that the two units above.

Ã‚Â· It will send text messages to your mobile phone alarming you what number the SPY -Phone is dialing out to or is receiving a call from. You may then dial in to the SPY-Phone and listen to both sides of the conversation.

Ã‚Â· It will send copies of text messages that the SPY-Phone sent (including the phone number that the SPY-Phone sent the text messages to.

Ã‚Â· It will send copies of text messages that the SPY-Phone received (including the phone number that the SPY-Phone received the text messages from.

Ã‚Â· And like the above two units It will also allow you to call in and listen in on the voice or sound within the vicinity of the phone when the phone is not in use.

Ã‚Â· It will do all the above without alarming the person using the SPY-Phone

Give it as a present to your, spouse, your kids, your employees, etc. Know what your kids are up to, know your spouse's behaviour when you are away. It is very simple to activate the SPY-Phone (It takes less than a minute to activate.)

Just send two short text messages from your phone to the SPY-Phone to activate it and the SPY-Phone turns into your personal detective. You are now ready to give this SPY-Phone to anyone you want to spy on. You can even take a trip to Hong Kong and monitor your spouse in Delhi . There is no range limit for this SPY-Phone ! It follows your target anytime, anywhere, home, office, bedroom, washroom, class room, meeting room, motels, hotels, friend's house, the list goes on. SPY-Phone is one of the best detective you can find. Can be used with any SIM card world wide.

This SPY-Phone has built in software (no hassle downloading the software your self which may ruin the phone or cause mismatch between the phone and the software.)

Only two short text messages required from your phone to the SPY-Phone to activate it.

After activation the SPY-Phone turns into your personal powerful detective tool.
