Article published on July 26th 2012 | [Business](#)

Technomate is categorized under the Electronics group of companies. The company is based out in London, England. Technomate was established in the year 2000. The business of the company is manufacturing international satellite and terrestrial television equipment. The company manufactures and sells satellite channel receiving equipments like set-top boxes, DVB-S & DVB-T Receivers, Personal Video Recorders (PVRs) and aerials. The company manufactures special type of set-top boxes that catches the signals of Europe, Arabic and Asian channels. These channels are not receivable by the set-top boxes designed and manufactured by companies like Sky and Freesat services. The company also has expertise in manufacturing the CCTV equipments and Wi-Fi routers. Technomate also manufactures cables like audio/video cables, Ethernet cables etc. The company also manufactures many types of TV brackets. The satellite boxes are all high definition and give you a better viewing experience. You will get better picture quality and better sound quality.

Now, let us talk about Blade Media. This is also an electronics equipment manufacturing company like Technomate. Blade Media manufactures satellite set-top boxes. These set-top boxes are used in homes, hotels, hospitals and other setups where there are TV sets. The company manufactures both standard and high definition set-top boxes. There are various types of set-top boxes that Blade Media manufactures. One of the set-top boxes is one that catches signals from different satellites.

These boxes may not catch the terrestrial signals. There are set-top boxes manufactured by Blade media that receive signal from both satellite and terrestrial sources. Apart from the set-top boxes the company also manufactures media flyers. The media flyer category includes digital streamer, internet player and media storage. The company also manufactures other media players and also USB personal video recorder or PVR. Blade Media has big companies under their umbrella of partners.
