.

If the design is approved from your end, it straightaway goes to the manufacturing unit where your dream closet begins taking shape in reality with the finest of materials with the highest quality standards.

California Closets Styles:

Before you go for your closet designing you must first understand the top three custom closet styles to see which would suit your bedroom the most. The common and popular styles are:

Walk-in™s: These refer to large closets where you can walk into, ranging from a few feet to even the size of a room. Though it anyways allows maximum storage, but its corners and sides needs to be creatively utilized of which California Closets is an expert.

Reach-in™s: Usually found in old homes and guest bedrooms, these are closets with a single rod for hanging clothes where people can reach. California closets have given these closets a whole new dimension with multiple storage layers complete with shelves, drawers, etc to create ample space.

Wardrobes: This usually involves closet creation in a space where there wasn't any before. Different from traditional closets which by design are cut into the wall, these are series of pieces or one single piece that is arranged along the wall in the bedroom. California closets provides you the best possible design that blends with your room décor and also optimizes space.

So what are you waiting for? If your bedroom happens to be a cluttered chaos, California closets can transform it into a soothing sanctuary.
