Web Portals: Making the job search easy by [Jasina](#)

Article published on January 21st 2012 | [Career](#)

These days the internet offers a multi pronged approach for lookout for jobs. The presence of many websites, or rather portals display the required information, updated in all aspects, on their web pages. One can browse that are not only in the national and multinational companies of repute, but also in the public sector too. Simply click on the name of the company you want to know more about, and voila, you get what you want to know. Some of these sites have been in the business for long and provide all the trends existing in the employment scenario. One can even submit his/her resume or application online too. These web portals give the option of not only to search the job but to apply for one as well.

The search for jobs in these web portals is very easy. You can even specify the type of the job you want to search. The categories include Telecom, Real Estate, Banking, IT/ITeS, Pharma, Media, and Publishing etc. The companies are both indigenous behemoths to Multinational giants.

There are other categories too as Petroleum Energy, Automation, BPO, among others. There are innumerable options available for the freshers too. All one has to do is to set his experience as a fresher. Similarly, one can explore jobs based on his educational qualifications, if you are a Diploma holder or a PG (MBA, M.Tech) etc. You can also filter your search based on the city that you are looking to for finding an employment. The cities could be New Delhi, Pune, Mumbai, Chandigarh, Bangalore, Chennai, Hyderabad, and Ahmadabad.

Now internet is not the only option available. You can register with the mobile services too and get timely updates regarding the jobs that you have enlisted for. It essentially means that you do not miss out on any fine employment opportunity if the timeframe available is limited and you are not logging on the internet promptly.

So now you know how to go about your search for that elusive employment opportunity in a short span of time and at your own pace. It might take a little amount of time to get yourself acquainted with all the finer points of the technology and the whole process of job hunting, but once you are capable of handling all the information and the details, it might not be long before you earn yourself a pleasant feeling job.
