There are kinds of equipment and property in Diablo 3. But we find that the monster's loots is not suitable for our class. Now let us use Forging System to produce the equipment which is comfortable, and make us more powerful.

Forging system

The forging system is a new kind of system in Diablo 3. Blizzard to join its main purpose is by the the addendum way allows players to dispose of those they do not need to loot. Of course, players can not only forging armor and weapons, they can also build the gem. There will be two special NPC in the town to help the players to do these things. They are a blacksmith and jeweler.

Blacksmith and jeweler drawings and grades and progress of the experience can be shared by the whole account. So the blacksmith or jeweler you upgraded in this role will be the same in a role.

The role of the expert mode is not interoperable and the role of the ordinary mode the progress of the blacksmith and jeweler.

Blacksmith

The blacksmith can forge weapons or armor, and also the decomposition of the items for the forged material.

Forging materials can be obtained through the auction or the decomposition of the players during the game does not require equipment.

The quality of the forged material is the range difference.

Different quality of the equipment will decompose the different quality of the forged material, the more rare when the quality of the goods, then the decomposition of the material will be more rare.

Forging an item will consume a different number or types of forging material and some gold.

Ordinary game, there are two kinds of forging material (blue and gold) in the difficulty of normal, nightmare and hell. Inferno difficulty mode increases an extra gold forging material.

Jeweler

Jeweler to the items drilling, synthetic stones, and can not destroy the gem the gem to remove the equipment and allowing the player can re-use the gem.

The Jeweler will need [Page of Jewelcrafting],[Tome of Jewelcrafting] and [Tome of Secrets] to upgrade his skill level.

The Jeweler merchants Tab map a gem to show his position.

Players can use the 3 any kind of low-grade gems synthesis of a new higher level gems.

At present, the player on a piece of equipment can be up to play four gems hole (different in different parts of the equipment).

Gems

The gems are four types: ruby, topaz, amethyst and emerald. Each gem has 14 levels.

The regular course of the game, the monsters will only drop up to the eighth grade of the gem. Other higher level need a jeweler at the building, to synthesize a higher level of low-grade gems.

Precious stones inlaid in different parts of the equipment will have a different income property. However, in the same equipment, parts of different jack, the gains it to be the same.

Do you understand about the Forging System in Diablo 3? The game now has more and more player joining. Hope you will become a strongest one, beat every enemy and get the best equipment in the game.
