Article published on May 14th 2012 | Computer

Laptop is considered as an important gadget in todayâ€™s world. It plays a significant role in both our personal and professional lives. One of the latest laptop available in the market is the HP Envy 14 Spectre. These gadgets have been designed for consumers, who are fascinated to latest styles. It is a 14inch Ultrabook, which is equipped with an Intel Core i5 CPU. The display of these gadgets is protected by making use of Gorilla glass. These laptops have been highly acknowledged by the consumers and are considered to be better than many Latest Desktop Computer and laptop available in the market. These laptops are greatly admired by the users due to their classy design and low power consumption.

You can have only 14in viewable area on these laptops. These laptops are slightly smaller in comparison to some other 14 inch models such as HP's own Pavilion dm4, which 14mm wider and 5mm deeperas compared to the Spectre. These laptops come with a compact keyboard like the SONY VGN-N Series Keyboard, which enables the user to have convenient and fast typing. The 14 inches high resolution screen of these laptops are provided with backlit keyboard with proximity sensor, Bluetooth and WiDi to Smart connect Technology. The Smart Connect Technology helps in allowing the PC to receive mails, and other social networking updates even while the PC is on sleep mode.

On the left side of the chassis, you can access all the ports and the SD slot. You will find two USB ports one is a USB 3.0 port and the other is a Gigabit Ethernet port. It is equipped with a spring-loaded bottom portion for keeping the chassis looking thin, DisplayPort and HDMI, and a combination of headphone & microphone port. The volume controls and the cable lock facility are located at the right side of these devices. The latest HP gadgets also proved to be excellent in terms of battery efficiency. Likewise Dell Laptop Battery, it is rated at 58 Watt-hours and it is not possible to remove it unless you have a set of small Torx screwdrivers. It is a thin battery covering almost half the area of the base.

According to Latest Laptop Reviews, the performance of the Sectre gadget is not so impressive in comparison to HP's mainstream Folio Ultrabook. Even then this gadget is worth buying. These gadgets have a simply beautiful screen and a comfortable keyboard. The Gorilla Glass panels are convincing and these could possibly pave the path for some double-screen, tablet/notebook, hybrid designs from HP in the future. In terms of sound, as it is a small laptop, it can be said that the sound is of optimum quality. Although small in size, these laptops sport a sturdy design and provide longer service life. You can enjoy good quality videos and music on these gadgets owing to their high definition picture quality crystal clear sound quality. It seems that this device is going to be an ideal one for all those are looking for latest laptop with advanced features.
