Planning to Buy a Fax Machine by A2b Office

Article published on February 9th 2012 | Customer Service

Fax machine was originally known as Facsimile machine. Fax machine is equipment that can send or receive text and pictures over a telephone line. Fax machine sends the text and image by dividing it into grid of dots. While on the receiving side the fax machine converts the same dots and reprints the picture.

Fax machines now, are commonplace in offices of all sizes. They provide an inexpensive, fast, and reliable method for conveying correspondence, contracts, handwritten notes, and illustrations. While buying a fax machine you need to take care of some significant things such as speed, paper size, printer type etc.

A2B office technology ltd, a well reputed company in England provides fax machines with various functions and technologies. Set up since 1991 the company is providing eminent fax equipments with a quality customer service. The companyâ€™s staff is well versed with the market requirements and its customers need.

One can easily find the latest technology fax products at A2B Office Technology Ltd. Below mentioned fax machines are provided by the company:

Standard fax machine: This fax machine has the capacity to take 10 â€“ 100 sheets. The varied modem speed helps in storing the page memory. Moreover the multi functioning fax machine also helps in scanning and emailing the image or file. The standard fax machine also comes with different auto speed dials.

Fax machine with answering: Yes, the fax machine also comes with the facility of answering machine. The functions of this fax machine are similar to that of standard fax machine. The key point which differentiates this fax from standard is its feature of answering machine.

Fax answer machines with cordless phone: The latest element added to this fax machine is wireless facility. Moreover an added advantage of this fax machine is it comes with cordless handset. Each machine other than fax also includes print, scan and copy service.

Laser fax machine: With the technology getting faster, the A2B office growing with technology has come up with laser fax machine. This fax machine is also known as All â€“ in â€“ One. The benefit of laser fax machine is it does not rely on thermal paper. It turns out quality prints for both texts and images in black and white.

Multi function fax machine: The multi function fax machine offered by A2B office gives you two choices i.e. inkjet multi functioning fax machine and laser multi functioning fax machine. The inkjet fax machines helps in faster fax and so it saves time. Visit us To know more about inkjet and laser fax machine

The fax machines supplied by A2B office are of adjustable sizes and at affordable price. Moreover all the fax machines are energy efficient and meet the environmental standards. You can place an order online and get delivery the next day.

So your fax machine is just a click away!!
