However, most guys fail to consider is that the dating Russian ladies and Ukraine girls often have the same questions about men on those sites. While many foreign guys expect absolute honesty from Russian and Ukrainian women, a lot of men are not really honest themselves. For example, many guys post less than accurate pictures. While a guy may not intend to deceive a lady by posting old pictures in his dating profile, he must ask himself how it would make him feel if a woman did the same. Also, many guys lie or exaggerate details about themselves. When people hope to establish serious relationships, it is very important to be honest and upfront about every aspect of their lives. Dishonesty is an awful way to start a new relationship.
