Guidelines for getting Australian student Visas by Shaz Memon

Article published on February 6th 2012 | Destinations

Providing world class education infrastructure Australia has been a top destination for the students from all parts of the world. This is why Australian Government is granting more funds towards providing more sophisticated and high quality infrastructure to schools, colleges and other educational institutions. The students from overseas who are looking for admission in the schools or colleges must obtain an Australia Visa which will permit them to stay in Australia during their course. With Australian Student Visa or Australian Education Visa you are allowed to enter and stay in this country as a temporary resident as per the course duration on the condition that you are enrolled in a recognized Educational Institute of Australia.

The requirements for student Visa Australia are:

To get entitled to the student Visa Australia you need to provide your health and character certificates as well as proof of your insurance coverage.

If you are applying for this type of Visas Australia you need to be eligible on personal, academic and financial ground. The financial eligibly criteria of the applicant means your capability to bear airfares, accommodation expense, tuition fees and your ability to support the dependents during the course of studies.

As a student when you are applying for education Visa you must be proficient in English as it is considered essential for this kind of Visa. If English is your second language then you must pass IELTS test.

In the assessment process your prior history of immigration plays an important role.

As an applicant of this Australia Visa you need to pass the medical examination under the specifications of DIAC.

Before you submit the visa application you need to get a medical insurance under the guidelines of OSHC or Overseas Student Health Cover program.

Australian student Visas are granted under seven subclasses which are, Independent ELICOS, Schools, Vocational Education and Training (VET) Sector, Higher Education, Postgraduate Research, Non-Award, AusAID or Defense Sponsored.

To make immigration process smooth and hassle free there is a five level assessment program. Matching your passport with the subclass of Visa you can identify your assessment level. When some family members are accompanying you, they will have the same assessment as yours.

Applying for a student visa is easy and can be done through the local Australian embassy or consulate situated in your country. Response of application can be received within 24 hours. The Visa Entitlement Verification Online System (VEVOS) allows you to have access of visa details electronically at any time. For application and processing of visa a non refundable application fee is necessary.

If a student is below eighteen years, he/she needs to have a local guardian residing in Australia. Using Australian Visa Service for students you can now work in the country for a maximum period of twenty hours in a week. For this you need to get a work permit after the completion of your course.

For the international students obtaining a tax file number form the Australian Tax department is mandatory for those who are working under this scheme.

If required you can take help of professional Australian visa experts who can help you to get your student visas Australia at an affordable fee.
