See South Tyrol by [Monica Moca](#)

Article published on April 23rd 2012 | [Destinations](#)

South Tyrol is located in the northern part of Italy on the border with Austria. There is a very large German speaking population here thanks to its location. It features a beautiful landscape and mix of cultures that include both Italian cuisine and German heritage. Mountains dot the region of South Tyrol and it is a very popular ski station destination.

However, it also very popular during the summer thanks to its incredible mountain views. This area is ideal for vacations of longer stays because there is much to see and do. It can be visited in a long weekend, but youâ€™d miss the most.

The Dolomites are some of the most breathtaking mountains in Europe thanks to their green valleys and jagged slopes. If you want to see a truly amazing part of Europe, then you need to visit this area of Northern Italy. In addition to the beauty of the scenery, there are many sports that you can do. Skiing and snowboarding is the most popular during the winter. In the summer, there are plenty of hiking trails for horses and people alike. If you love the outdoors, then Tyrol is a place you must visit with your family.

You will be greeted by kind people who want to show you their culture and area rich with history and great food. You will want to return to this area of Italy again and again.
