Florida is rapidly becoming one of the hottest destinations for holidays. Whether you are looking for a Florida getaway for your honeymoon or you're looking at cheap Florida holidays for your family, there are a large range of attractions that cannot be missed.

The Beach -

Florida is a giant peninsula that reaches out into the warm waters of the Gulf of Mexico and the Caribbean Sea. Florida holidays are known for the great beach access you get no matter where you are in the state. The climate is warm and comfortable and you can swim in the ocean all year round. Of course you'll get to the beach. Florida getaways are not complete without a swim.

And if the beach isn't your thing, Florida holidays offer as many swimming pools as you can imagine in one place. When the weather is hot, you'll want to cool off, and Florida is ready for you whether you prefer the white sandy beaches or the fresh water swimming pools

The Theme Parks -

While the weather really encourages people to go swimming, there are more ways to get wet on Florida holidays than you can imagine. Disney World in Orlando offers a whole host of fun rides, great for kids as well as adults. Many of them include big splashes, which will keep you cool even on hot days at the park. If you aren't looking for cheap holidays to Florida with the kids, Disney might seem a bit silly, but the truth is that adults have a great time there, too.

Universal Studios Florida is also a great destination for Florida getaways. From scary and exciting rides and shows to experiences on set, Universal is a great place to visit during your Florida holidays.

Natural Diversity – The Everglades -

Maybe you've never heard of the Everglades and this will all be new to you. Or perhaps you have been curious about cheap holidays to Florida just because you know about the magic that is the Everglades. Either way, doesn't skip this incredible national park. It turns out there is no ecosystem like the Everglades anywhere else on the planet. Exotic animals like the Florida panther, manatees, and an incredible range of birds, including flamingos, live in this mangrove wilderness and there are many ways to work a visit into your Florida getaway.

Taking Time for Yourself

We all need a break from the pace of everyday life. Some people go to the country for the weekend, but more and more people are looking into Florida getaways to take them to a whole different climate. Sun, sand, poolside cocktails, exciting natural phenomena, and world-class amusement parks are all on offer. And it's not difficult to plan cheap holidays to Florida if you do a little research first.

You can get a great deal on your Florida getaway by booking your airfare, hotel, and transportation in advance. You may even get discounts on attractions as well. Book your Florida holidays now and give yourself some time away from it all.
