Octashop – the complete platform for ecommerce [By Sanchita Kumari](#)

Article published on May 16th 2012 | [E-Commerce](#)

Octashop is a perfect ecommerce platform which has helped many companies to run their business successfully. It is an IT organization that has been known continuously for its path breaking solutions that it offers to its clients. This organization partners with businesses in various stages for its growth and helps them to achieve at high level. It involves three main stages which are functionality, capabilities and reliability.

Functionality- it will focus on what all Octashop does to those who want to run their online business. It has proper ecommerce software which captures complete information in order to promote the new brand of your website. To gear up your online business, it is very essential for ecommerce software. This enables cross platform search. It means that it is capable of running on different platforms and the user can switch from one platform to other without converting their data to a new format. Besides this, the team of Octashop manages work flow of online businesses, takes cares of orders, shipping, warehousing and dispatch online. Also, it allows mailers to both sellers and buyers and cross/up selling and supports innovative payment online and offline modes.

Capabilities - For your online business, Octashop supports multiple models. For online retail business to be successful, this company provides with well designed web portals in order to bring more and more customers to shop from your online store. It basically extracts information from the existing setups and helps in exploring new ideas and avenues so as to expand your website. Apart from this, the E enablement technology of Octashop has own database and application server which ensures twenty four hours monitoring services. Like, it makes sure that the server does not get down.

Reliability – the team of Octashop works in a synchronized manner so as to deliver information to your customers. It hosts applications to the dedicated server. Also, when the traffic is high, it makes sure that your website is running smoothly without any problems. The Ecommerce Software of Octashop has the inability of supporting too much load. Therefore, to get as much information as you want for your website can be done easily by this company.

Thus, Octashop offers a complete ecommerce platform for those who want to set up their own business. It helps in creating whole new opportunities for its clients so as to make global success for ecommerce. No doubt, with the help of this company, you can make your online business famous all across the world.
