Article published on April 6th 2012 | Education

Ever wondered of attaining a degree while sitting at home and without going to a campus? Have you ever thought of achieving higher education while working and without surrendering social responsibilities? Yeah, this is absolutely possible nowadays with the advanced growth of technology. Education has now arrived to your doorsteps with the advent of distance learning mechanism. Erudition is the essence of life and to achieve it you should do the best you can and with the constraints you are provided with. There are various distance learning online courses available in todayâ€™s modern educative world and you can achieve them just by sitting at home. You just need to switch on your computer and be well equipped with the technology of World Wide Web.

There are various institutions across the world which provides a plethora of online degrees. A lot of courses are offered by the distance learning mode of education. These are correspondence courses ranging from bachelors to doctorate programs. Using tablets and other gadgets, an interactive session between the teachers and students is maintained and it is no less than a regular institution. The course structure is also same as compared to regular colleges and universities.

Advantages of online education

Distance learning online courses can be availed sitting at your own residence and at any time. Distance learning education is very flexible and it is also very cost-effective. With the audio-visual mode of technology, the students enjoy an interactive session with their professors. You need not pay high tuition fees like regular courses and you can also work while you study. Such an online education is perfect for the working professionals who have to shoulder many social responsibilities. You need not compromise on your family commitments while you study in this mode.

What are the courses offered by online universities?

Undergraduate â€“ The online university courses at an under-graduate level range from normal stream like Science, Commerce and Humanities to the engineering and medical studies. Online universities also offer creative courses like Mass Communication, other courses on Media Sciences, Fashion Technology, Film Studies, Architecture, Economics, Mathematics, Law, Journalism and Advertising, etc.

Postgraduate â€“ The online universities also offer post graduate courses which are in great demand. Many people are pursuing management studies via the distance learning mode of study. Other post graduate courses are in Art, Banking, Digital Media, Physics and Chemistry, Social sciences, etc. Even a student can complete his doctorate degree via distance learning. However, this is not as popular as the undergraduate and post graduate courses.
