Article published on June 25th 2012 | Education

10th standard is the life deciding chapter of every personâ€™s life. For the first time, students sit in the CBSE or ICSE papers that are held at a national level. Although, these two boards also prepare the course material for primary, secondary as well as higher secondary levels, but the examination at national level are held only for standard 10 and 12.

Standard 10 board papers decide whether the student will pursue a career in science, arts, commerce, etc. Therefore in order to be well prepared to face any challenge in the form of different questions in the main exams, the students prepare from various sources such as text books, 10th class guess papers, 10th class sample papers, notes, tutors, etc.

Among all the sources, 10th class sample papers are considered to be of great importance after the main course books. 10th class solved papers come for different subjects and are published by various publications. From mathematics to the specific subjects in science and social studies such as biology, physics, civics, geography, etc, 10th class practice papers are available for all the subjects.

These solved papers have the board papers of the last 10 years and along with this, 10th class guess paper books also have additional questions that might come, different tricks of solving question, different tips on writing and remembering some important topics, a summary of each chapter from the main text book, etc.

10th class model papers are a very useful medium for children to prepare for their 10 board exams. There are some children who cannot afford extra tuitions and here 10th class solved paper books are of great help for them. Such students can learn new techniques of answering questions; understand the important topics that need to be given attention, etc all without any need to go for extra tuitions. 10th class sample papers are like and help for all those students who prepare for their 10th broad exams and aim at scoring above average marks. This is so because based on the percentage of marks scored by the students in the 10 board exams, the students are given options in which they and choose a specific stream such as arts, commerce, fashion design, science, computers, etc in their higher secondary education. These papers form the basis of deciding a childâ€™s future in the short as well as long term. And if the student is unable to score well in his 10th board exams, then there is possibility that the child will have to sacrifice his dream.
