Lost Planet 3 is an upcoming 2013 third-person shooter video game being developed for Microsoft Windows, PlayStation 3 and Xbox 360. The game is in development by Spark Unlimited and will be published by Capcom. The game is the pioneer to Lost Planet: Extreme Condition and Lost Planet 2. The gameplay takes place on the same planet as seen in Lost Planet 2 and Lost Planet: Extreme Condition was, E.D.N. III albeit. As known the game takes a more story-driven narrative approach to the campaign similar to the first game.

Lost Planet 3's producer is Andrew Szymanski. However game series creator, Kenji Oguro is the game director, the game yet will be developed externally by Spark Unlimited unlike its previous games in the series which were developed internally by Capcom, this rules trend the fact that DMC: Devil May Cry a Capcom game developed externally rather than internally by Western developers.

The game features E.D.N. III, an ice-age environment rather than the tropical environment we got to see in any previous game, the game actually will be quite similar to the very first game with a story-driven adventure. The game's official trailer from its official website unveils its fortune success; a cleverest game, the game gives the impression of amazing fun, awesome visit to the ice-age environment planet will give the player a pioneer gaming experience I believe. The series takes its place to a new interesting gaming experience, the game leans towards a whole new action world. At E3 conference Capcom leaned to emphasize and make the people believe that the lost planet 3 is all about action, and will be marked as an amazing game in shooting and adventures history.
