Article published on February 27th 2012 | Finance

Payment Protection Insurance or PPI is a type of insurance cover often offered alongside all kinds of financial loan products, including credit cards. Credit card debt is getting extremely common nowadays, with people unable to pay their bills because of low income, unemployment or simply not being able to cope with all the interest that tends to pile up. There are many agents and companies who are still providing illegal and fraudulent services. These companies don't solve your credit card debt relief problems. Professional lawyers and attorneys, who provide credit card debt relief services, know much about creditors and their policies.Credit card PPI is usually applied on a monthly basis and is directly linked to your outstanding balance. Getting refunds from Credit card PPI can be very time consuming and a real pain.

How to Claim Back PPI on Credit Cards? You can claim back 6 years of PPI.

1. Check the mis-selling checklist here to see if you have a reason. You will probably have many!

2. Write to your lender with a cheque for Â£10.00 to request your account details if you donâ€™t have statements going back 6 years.

3. Work out from the information how much PPI you have paid each month

How Much Can You Claim? The amount you can claim will vary depending on your credit card provider and how many charges you have had over how many years.

The process of credit card PPI claims is a simple one which starts with an information gathering process. This information gathering will enable us to find out all the details for your credit card PPI reclaim allowing you to choose which you would like to pursue. An advisor will tell his clients different tactics which he has to use.
