Having the Right Build for your Guild Wars 2 Ranger by ThomasÂ C.Â Ferguson

Article published on July 11th 2012 | Games

Guild Wars 2 Ranger Pet Guide and Build getting ahead of the game with your class may require an extra boost with a Guild Wars 2 Ranger leveling guide. This article will guide you through some of the best pets and some example builds depending on where you want to take your ranger.

Guild Wars 2 Ranger Pets

The purpose of the build in this Guild Wars 2 Ranger guide is to help effectively boost your pets for maximum support. Using the shortbow gives you five abilities at once, and you'll want to enable all signets for your utilities. Signet of the Beastmaster under the Marksmanship tree will effectively make both your pet and your Guild Wars 2 Ranger great with damage.

For the elite skill, you will want to enable Rampage as One, which will make you rampage as the name suggests, but it also allows your pet to attack foes more quickly while gaining Might, Swiftness and Fury. All in all, it works out great for both you and the pet. Finally, Signet of the Wind will permit both you and your pet to regenerate health while passive, and your pet will increase in size and in stability while delivering a higher output of damage while it is active.

Guild Wars 2 Ranger Leveling Guide: Overpower Mode

Try this build if you really want to utilize skills to overpower yourself with damage. Hunter's Shot gives your pet Swiftness as you shoot your foe to make him vulnerable to further attack. Point Blank Shot will push your foes back, and the closer you are means he is pushed back even farther.

Quickening Zephyr permits you and a pet to move more quickly. The Signet of Stone will improve toughness for both you and your pet while passive, and your pet will not actually take any damage when it is active. Signet of the Wind is also a very useful one to have for this build as well, as is Rampage as One. Rather than use a shortbow as with the previous build, however, you will want to equip a long bow and keep a two-handed sword on hand for this one.

Whatever build you choose for your ranger in Guild Wars 2, always consider having a handy guide to the Guild Wars 2 classes on hand in case you need to reference any other skills you might want to equip your ranger with. With a little ingenuity, you'll power through the game in no time.
