Improve Your Home Interior Design with Flamerite Fires by Nathan Shipley

Article published on April 23rd 2012 | Gardening

Flamerite fires can offer some attractive and effective options for your home. This leading brand can provide some of the most innovative electric fires on the market. These energy saving designs can bring something special to your home interior design.

Fireplace Focal Points

Although most houses now have central heating the fire has very much remained the heart of the home. It is rare to find even the most modern of homes without a focal fireplace. We may not need to use fires but there is something about the warm and welcoming effect they bring to a home that means they are a lasting fixture in interior design.

â€¢ Electric fires have come on a long way in recent years and can offer some great flexible features for the modern home.

â€¢ With Flamerite fires you can enjoy all the benefits of a real fire without the disadvantages.

â€¢ You can find great flame effect electric fires in the Flamerite range that offer a very realistic focal point for your room.

â€¢ Even better you can enjoy the flame effects without switching on the heat element as well.

â€¢ This means even in the warmer evenings you can relax in the welcoming flicker of the flame effect without wasting money on additional heating.

â€¢ There is a good reason why fireplaces remain the focal point of many living spaces. They create a warm welcome that can be missing from modern home features such as sophisticated home entertainment centres.

Home Design

The great thing about Flamerite fires is that there are many designs available. You will have plenty of choice when it comes to picking the finish and style that best suits your home designs. Whether you want an understated clean design that fits into a period style home or a strikingly contemporary fireplace that will create a visual impact there is something for you.

â€¢ When it comes to Flamerite fires you can choose from a number of fuel effects including pebbles and coals.

â€¢ Pebble effects can look stunning in a modern or minimalist home. Coal effects are ideal if you are trying to achieve an authentic traditional feel for your home.

â€¢ You will also be able to choose from a range of finishes for the main fireplace. This can include options such as a contemporary graphite finish or a simple, clean-cut stone effect.

â€¢ It is important to have a choice of finishes when you are trying to complement your existing home interior design.

â€¢ You need to look at your rooms and decide which Flamerite fires would best suit the overall look

and feel of the room.

â€¢ Once you have a good idea of what you need you can then start shopping for the perfect Flamerite design and finish for your interiors.
