Versatile Heating Options for Your Home with Flamerite Corello

by Nathan Shipley

Article published on March 5th 2012 | Gardening

Flamerite Corello can offer versatility to your home heating. These modern electric fires are available in a wide range of designs and have some great features to benefit homeowners.

-Flamerite Corello fires are available in a choice of great looking finishes including stone and bronze effects.

-Multifunctional controls are offered so that you can fully control the fire.

-This includes a dimmer function so that you can adjust the intensity of the flame effects.

-You can also choose to use the fire with the flame effect only (no heating).

-This is a cost effective way to enjoy the cosy effects of flames without the costs of the heat.

-The shallow design of Flamerite Corello makes them perfect for mounting to the wall. Spacers are provided for this option.

-You can also fit them back into existing fire surrounds.

-Remote control handsets are included as well as manual controls. This means you can operate the fire from anywhere in the room.

-You can choose from attractive coal or pebble fuel effects for your Flamerite Corello fire.

Why Choose Flamerite Corello Fires?

One of the great advantages of Flamerite Corello is that they are so easy to install. Unlike fuel burning fires you will not have to worry about chimneys, flues or piping. You can simple mount your new Flamerite Corello to an appropriate section of wall and then plug it into a standard socket.

-This is so much faster and easier than gas fires or log burners.

-You can also save a lot of money as you will not have to get a professional in to install your new fire.

-Flamerite Corello fires are very efficient. They do not waste fuel like real wood or coal burning fires.

-This means you are getting the most out of the energy you are using to heat your rooms.

-With Flamerite Corello fires you can reduce your energy consumption and help to reduce utility bills and carbon emissions.

-Flamerite Corello fires are also very easy to use. You can turn them on with the flick of a switch and enjoy instant warmth.

-Real wood or coal burning fires may be very cosy but it can take a lot of work to get them started and keep them burning.

-There will also be a lot of ash and waste to clean up after you have used these fuel burning options.

-With Flamerite Corello there is no hassle and no mess. You can just turn the fire on and off instantly as you need it.

-Because Flamerite Corello do not actively burn fuels you also donâ€™t have to worry about carbon monoxide levels in your rooms.

-This can be a much safer, cleaner and more efficient way of heating rooms.
