Electronic Cigarette Kits: Smoke everywhere by Corwin Smith

Article published on March 13th 2012 | Health

The e-cig is the new health craze that is capturing peopleâ€™s attention. This can be smoked indoors and is also better for you, according to studies. This product is a water vapor that does not cause as much harm as a traditional cigarette. Electronic Cigarette is a product which was lunched to give smokers the freedom and pleasure of smoking anywhere without actually smoking. This provides the satisfaction of the traditional cigarette without the 4000 harmful chemicals like tobacco, tar, carbon monoxide etc. that are associated with the traditional cigarette..

Electronic Cigarette looks like a traditional cigarette. There are lots of companies that launch the electronic cigarettes kits. Finding the electronic cig is not easy as walking into store but they can be found online.

An electronic cigarette does not produce second-hand smoke and should be allowed under most smoking bans. The device has no flame and no tobacco .The cigarette comes in two parts, the longest part contains micro electronic technology and a rechargeable battery and the shorter part is the flavored cartridge. Each cartridge is the equivalent of 20 cigarettes. The tip of the cigarette lights up as you inhale. Simulated smoke is emitted as you exhale. This is only vapor and evaporates in seconds. A full charge will last for approximately one day. Suitable for those strictly over the age of 18

You can also find them in your specialty shop; these companies offer many styles of electronic cig. When you purchase an e-cig starter kit, you will receive an electronic cig, 1 cartridges pack, 2 reachable lithium batteries and 3.6 volt battery charger. The starter kit for an electronic cig can cost you about $ 45.95 and up to $ 95.65.

Most places offer a 1 year warranty that will protect your electronic cig. There are many benefits of using the e-cig; it will reduce the amount of tar, and carbon that is deposited into your lungs. Many studies show that e-cig is healthier, the users who switched to e-cig have noticed improved lung functioning and reduction in throat irritation, if you are looking for a healthy alternative then e-cig is meant for you .
