The Advantages of Dental Implants in Manchester by [Julia Roger](#)

Article published on July 26th 2012 | [Health](#)

A missing tooth, whatever the reasons, is something we would all be embarrassed about; also, if it is a molar that is missing, then surely you will have problems in chewing food. Missing teeth can be replaced by implants that look exactly like real teeth. dental implants manchestere is tried and tested solution and qualified dentists in Manchester will help you in this process.

Before you go, make sure what the dentists charge you for dental implant manchestere. Often, clinics offer packages, and for greater satisfaction, isn't it just better to grab hold of the best deal?

The dentist should check your gums and teeth thoroughly before the procedure since condition of gums are important; this will give the dentists guidelines on how to carry out the procedure on you. The procedure involves drilling a metal post into your gums to act as roots, and then placing an implant in the pocket left empty by missing tooth. The metal post is made of titanium that does not corrode and fuses with your gums to act as natural roots. Sedation is offered if the procedure is long, or if the patient is nervous.

The advantage of dental implants Manchester is that they are identical to the teeth that are missing. They are quite durable, lasting up to 15 years at least. Implants help you chew better and improve speech and pronunciation that may have been affected by the missing tooth. Also, teeth implants eliminate the possibility of deterioration on bone structure because the gap is filled. In the absence of implants, the jaw can change shape due to the gap and a surgery is required to fix that. So, it is better to get implants than trying a jaw procedure.

Once you have implants, you're work is not done. Only, proper maintenance is required. Brush your teeth twice on daily basis, floss everyday and avoid excessive consumption of coffee or tobacco products. Also, remember to get a dental checkup after every 6 months.
