Custom Closet Doors by Evan Nasseri

Article published on March 9th 2012 | Interior Design

Closets are part of every home we use them to not only store clothes but other things too. Closets are very effective and help us keep our home organized. The kind of lives we all live in the city where our daily life is a constant race. It is a race to get to work through traffic and then face the pressure at work, on our way back home we often get stuck in traffic. Everybody lives a stressful life and coming home to a cluttered closet where it is hard to find clothes we need leads to added stress and pressure in our homes.

Designing a custom closet doors would not only provide us with peace of mind but also make us happy each time we look at our own creation. When designing a custom closet you need to make sure you have the right dimensions and measurements. Make sure the closet is big enough to allow for extension or upgrades in the future.

A closet for a man should have space for more than just pants and shirts. It should have space for shoes, ties, belts, hats, suits and accessories. For women it should incorporate space for shoes, scarves, belts, hats and purses.

If you have a walk in closet you should have a door that makes it unique and separates it from the other doors in your bedroom. There are several types of options available when it comes to custom closet doors:

1. Foldaway doors â€“ these doors fold down the middle and help you save space when you open the closet door. The bi fold closet door is the best example of a foldaway closet door.

2. Sliding doors â€“ sliding doors though fairly new in closet door world is quickly gaining popularity. It is considered to be the best type of custom closet doors and it slides away giving you unrestricted access to everything inside your closet.

Sliding closet doors also help you save space as they slide behind another door or a wall which means they do not take up space like normal doors do when you open them. Sliding doors are also available in frosted glass and fiber with various designs on them which make them very attractive.

You can also choose either a plastic, wood or fiber glass closet door for your home. You can have the doors fabricated into a size and shape that you wish for. You can also have custom closet doors designs.
