Decorating kids™ rooms is the most fun decorating task ever; you have the freedom to add all colors, photos, and effects you want without being judged. Options are endless and it is great thing to do with your child if he or she were older than 2 years. However, this fun task can be overwhelming with all the options to choose from, here are the main elements you want to consider when decorating your kids rooms.

## Furniture

Start by choosing the furniture you want to have in your child™s room. It might be tempting to buy theme beds but they are usually smaller and won™t suit your child for as long as a plain bed. Curtains should be light to allow as much sun for your child and they can have his or her favorite cartoons.

If you have a place for seats, you can always go with beanbag chairs and ottomans. There are special kids™ bean bag chairs with themes, cartoons, and fun bright colors. Beanbag chairs are a great option not only for the kids but also for the whole family.

Kids removable bean bag chair covers can be easily washed and returned to the playroom for continued fun.

## Color

There are a variety of new colors that you can pick for your kids™ room, but perhaps you should consider letting them decide. Accept whatever crazy, wild, or different color they choose even if it™s a mix of purple, red, and orange. You can always complete the process by choosing contrasting shades of the same color.

## Storage

Choose storage containers that serve as boxes and toys at the same time. You can also install table height bookshelves and use them to place toys as well as books. Brightly colored plastic boxes come in many shapes and sizes. These can be a great way for your child to quickly organize their room.

Finally enjoy every moment of this decorating task and involve your child from start to finish.
