Guestroom decor by Robert Meccale

Article published on July 25th 2012 | Interior Design

Guestroom is an area that's extremely important part of your home. A nicely decorated guestroom would leave your guests feeling welcomed and pleasant about your home. Your guests would feel positive about your home. However, if proper attention is not paid to the guestroom decorations, the guests may feel unwelcomed and may not feel as nice about staying at the place as they would otherwise. Therefore, it is important to make an effort to decorate the guestroom in a nice way that gives out warm vibes. Here are some tips to make the guestroom look nice and inviting-

Hues in the guestroom- In a guestroom, the colors chosen should be neutral and subtle. Bold colors may not be preferred by everyone while neutral shades are liked by almost everyone. One can have a single wall done up in texture paint to infuse style and design. The wall colors can be coordinated with the whole of the decor of the space and even with furnishings like decorative laminates, bed, cupboards etc. Curtains, bed-sheets, mats etc. need to be chosen in complimentary colors to lend the whole of the decor a feeling of unity and harmony!

Furnishing options- Furnishing for the guestroom has to be such that it not only looks beautiful but also looks comfortable and practical. Choosing sturdy furnishing and countertops would work the best in the guest room. For a guestroom comfortable bedding, a study table, ample storage and dressing area are a must. One can opt for either wrought-iron or wooden furniture for the guestroom. In place of tables, countertops can be installed to lend the area a functional as well as a stylish edge. Composite laminate is a good option for the room as they last long and are easy to take care of, as well!

Accessories for the guestroom- The thumb- rule for the furnishing and guestroom decor is that all of it needs to be simple. The guestroom decor has to be non-complicated. Very heavy-duty or carved accessories need to be avoided as it would be tough to take care of them! Simple accessories can also lend a touch of elegance to the room without a doubt, so no need to buy stuff that's tough to take care of. This rule goes for furnishing too. Furnishing has to be low-maintenance too. Hence, countertop laminates are a great choice and when it comes to accessories, fresh flowers, laminates paintings, photographs, simple lampshades can do the trick!
