USE BRIGHT COLOURS TO CREATE SPACE

The room will actually look larger if you use bright and vibrant colours with products such as chairs or wall pieces. This will create the illusion of more space to your room, and as you can see by some of my products, I am a fan of yellows and reds to really achieve this.

NATURAL COLOURS WILL COMPLIMENT YOUR SPACE

If you love the look of wood or leather, or your home already has these elements, then choose products that incorporate this â€œearthyâ€• look. If you want to â€œplay it safeâ€• then that is fine, choose products that amplify the natural feel of the room and will improve the appearance, whilst staying with the theme.

LET NATURE INSPIRE

At Amaya, we believe that nature and your surrounding environment should be a big inspiration when choosing products/colours. For your interior, colours that appear in nature will blend perfectly in your home interior; for outdoor areas, donâ€™t be afraid to be bold and have at least one contrasting colour to create a point of difference. Look at where you are living in the world, and adapt to that natural environment.

As you can see by our products, we have a range of vibrant colours as well as more natural, â€œearthyâ€• ones. Whatever style you are looking for, Amaya can help you achieve it through our quality range of products and colour schemes
