Classified Ads Submission Service by Hector Castaneda

Article published on May 12th 2012 | Internet

A Classified Ads Submission Service is a great way for businesses to attract valuable traffic to their website. This service will drive relevant traffic to our website; will ensure that you stay within a budget, can guarantee your ad listings on the major search engines and can provide you with a full, detailed report of where we have posted your ads.

Whether you have a new product, have introduced changes to your business or simply want to advertise your deal of the month, this submission service will deliver the customers you need to expand and continue your business.

If your business is new to internet marketing, this type of submission service will ensure that your business gets the best exposure as early as possible and offers you the best value for your money. Millions of people look at a Classified Ad Submission Service everyday which will automatically refer them to the services you offer.

In addition to referring more customers to your business, this submission service will also provide one way backlinks to your website. This means that individuals browsing the online web will discover your services through other ads/ websites other than your primary company website.

The traffic coming to your website will be driven by our SEO techniques so that your rise in rankings and customers is relevant. This submission method is cheaper than most forms of advertising and you can get more for your money and your budget.

We can create multiple ads for each submission so that your business is promoted as efficiently as possible within a given timeframe. After your package ends, we will provide a full detailed report of all the successful postings that we made on behalf of your business.

There are a variety of Classified Ads Submission Service packages offered to suit a business's individual needs and requirements. If you are not sure of which package will suit you, you can always seek more help from the friendly advisors who have years of experience in dealing with such requests.

The regular submission service is for 15 classified ads submissions which will entail submitting your website to a range of Classified Ads websites. However, we would like to emphasise that this regular service does not include Craigslist as their submission system is complex and requires a larger effort on our part. The completion time for this service is 7 days.

We also cater for a 50 and a 100 classified ads submission service for a higher yet reasonable price which will also take 7 days. Our specialised Craigslist submission service is where we take special care to ensure that the advertisement is written well and submitted properly to lessen the likelihood of deletion. This promise to you does not guarantee that the advertisement will be accepted but we will do our utmost to ensure that its meets all the required guidelines. This will take us 4 days to complete.

Other than this submission service, businesses could also try a Directory Submission service, as recently recommended by Google, where your advertisement is submitted to yellow page like sites so customers can find your services if they search within a certain category.
