Numerous iPhone Keyboard by [Celina](#)

Article published on March 1st 2012 | [Internet](#)

iPhone comes with an onscreen keyboard that you use while typing, searching and for any other typing related functions. It enables us to correct spellings automatically while typing; it automatically shows commonly used words, as you type its first word, helps you in correcting grammatical mistakes and offers many more facilities. In this way we can say that, iPhone Keyboard was introduced to enhance the usability and durability of touch screen devices.

iPhone Keyboard is available for all Apple manufactured iPhone™s some of them like iPhone 4s, iPhone 4, iPhone 3G, iPhone 3G s. If you are using iPhone 4s then you will get Type Runner Keyboard. Whatever tasks you feel cumbersome and difficulty, it makes all of them very easy with its durability. Some of its most liked advantages include portability, easy maintenance, easy integration etc. Its measure is 8.75" x 4.25" which is very easy to keep in bags. As it is very light weight you don't feel bulky while taking it with you. It offers 90 days of standby time and 100 hours of uninterrupted use just by charging it for 2 hours. It is equipped with so many built-in Apple commands which make it easy to integrate. Other useful features includes home button, search button, onscreen keyboard on/off, start, stop, fast forward and rewind buttons, power on/off features. Last but the most important feature is that It is eyes and fingers friendly, Its ultra sleek design, rounded edges make it suitable to hold it in hands easily. It is available in Jet Black and Silver White color which gives it such a awesome looking.

To bring keyboard in your iPhone, you just have to go to new text message. By and by you will become familiar of using it. Just remember one thing while purchasing iPhone Keyboard, that you have attached iPhone 4 skins or iPhone 4 vinyl skins and don't cover the keyboard because you will have to see the display while typing.

It was all about just one iPhone Keyboard that is for iPhone 4s, other keyboards are also available for different types of iPhones and to know about all of them you should take a look at [Boxwave.com](#).
