Personalize your profile through Facebook cover by [Kamaxi Rav](#)

Article published on April 14th 2012 | [Internet](#)

Facebook has launched new version called Timeline that facilities user and provide more compatible environment. One of the most essential advance features is Facebook Cover. Now lets us understand the Facebook Cover feature. Timeline is modified form of facebook and it is the result of integration of new features. It provides more customize layout and designs. Timeline provides new format to facebook, it arranges or sort all the facebook activity from the beginning, and it also includes recent updates. It manages all these activity in consecutive manner.

Facebook cover plays a vital role to make layout and appearance more customize. User can personalize own profile through 99coverphotos. Cover is an image or picture which can be set on the facebook profile but it is not your profile picture. This image is displayed on the upper side or we can say in header portion of your profile. One more specialty of this picture is that it is large in size as compare to profile image. It is fixed as a banner image. These images can convert your profile in the personalize profile and it spreads unique and effective impact to the other viewer. People can use the cover photos for marketing purpose also they can set the logo or banner image of their organization on their profile.

For cover image user can choose image as he want, he can choose his own image also. For Facebook cover photos there are number of sites are available user can get the images here for the cover photos. There are some facts which are necessary to keep in mind while we choosing cover image these are: Your cover image should be large enough and its size must be at least 720 pixels. You can try some images and can adjust according to the size. Generally facebook cover images which are downloaded from the cover sites are enough large to set the cover and user has to just adjust these images. One more benefit of the facebook time line and cover is that for this advance feature user need not to pay for that. This service is provided free of cost.

Thus user can use Facebook cover on timeline and can make their profile more attractive. Cover photos are easily available on the internet and they can be used easily.
